

A bibliography of Tok Pisin-related articles in *Kivung* / *LLM* 1969-2020

Craig Alan Volker
James Cook University

Since its second issue in November 1969, *Kivung* (rebranded in 1981 as *Language & Linguistics in Melanesia* - *LLM*) has come to be a repository for writing about the languages of Melanesia and a reflection of the many interests of members of the Linguistic Society of Papua New Guinea. Among these have been an interest in Tok Pisin, the most widely spoken language in Papua New Guinea.

While all of the issues of *Kivung* / *Language & Linguistics in Melanesia* are online and there is much valuable research and analysis related to Tok Pisin and languages related to it, it is not always easy to sift through more than a half century's issues of the journal to search out what is needed. Nor is it easy to see immediately where researchers have been particularly active over the years (e.g., education and sociolinguistics) and which areas have been neglected (e.g., phonology and syntax).

In an effort to stimulate further research into Tok Pisin studies (and to organise my own research a bit better!), I have put together the following bibliography of articles related to Tok Pisin and its closely related languages (Solomon's Pijin, Bislama, Torres Strait Creole, and PNG English) from the earliest issues of *Kivung* to the 2020 issue of *Language & Linguistics in Melanesia*. The articles have been arranged in three lists: by topics, by chronological order, and by authors' names.

In all three lists

1. underlined titles have clickable links to the articles online at www.langlxmelanesia.com,
2. LLM = *Language & Linguistics in Melanesia*,
3. review articles are marked with ^.

1. Topics in Tok Pisin Studies

Please note:

1. The number of articles about Tok Pisin is much greater than those about Papua New Guinea English, Bislama, Solomons Pijin, or Torres Strait Creole. While articles about Tok Pisin are broken down into topics, those for the other languages covered in this index are not.
2. Within each topic, articles are organised chronologically.
3. Some articles appear under more than one category.

PNG ENGLISH

Note: Especially in its earlier years, *Kivung* (as *Language & Linguistics in Melanesia* was originally called) had a number of articles about general ESL methodology, language choice in schools outside Melanesia, or aspects of English elsewhere (e.g., Australian English). The list below

contains only those articles dealing directly with PNG English as such or with the interaction between English and other languages of Melanesia.

- Wolfers, Edward P. 1969. The vocabulary of New Guinea English as used by expatriates. Kivung 2 (3). 52-64.
- Chatterton, Percy. 1970. Comment on "The vocabulary of New Guinea English as used by expatriates". Kivung 3 (2). 143.
